My S. H. & H. Chapman  
Gentlemen -

I found that when I got through with my business today, I had just time to catch the 4 O'clock train & therefore did not stop at your house as intended - If you will however send your estimate to me, I will consider it - if you have it so made out, I would prefer to have a separate estimate as each class, that is, Dollars, 1/2 Dollars &c. separate, also patterns & Colunials -

I enclose a list of my Confederate notes, which would be pleased to have your estimate as separately; if you think they would desire them.

Yours truly

I am &c,  
My S. & C. Chapman

Your favors received - I am a little  
surprised - or should say disappointed at your estimate -  
I wanted to see your estimate before I showed you mine -  
which I now give you in brief, taking 1<sup>st</sup> the price  
which it would cost me to replace sand as early as I  
can fix them from late priced catalogues & deducting  
20% as a fair commission to Dealers

Proofs etc (1876 to 1881 inclusive)		30.
Dollars		210.75 = 150. 200.

			140.
les. 20%			85-
			1127
			1012
			105.00
			\$819.00

I consider this a fair estimate of the value -  
 If I see these coins, I should also want to dispose  
 of my currency also - as it would not pay me to keep  
 only such a remnant - I value them (in sound way)  
 as follows.

191 Continental notes (all states)	60.00
Confederate currency	145.
U.S. Currency (includes some duplicates)	30.
	235
les 20%	59
	\$176
2 Coin Cases (cost me about \$60)	24
	200

Say \$1000.00 in all - I think that you will  
 consider this reasonable and if you find you can accept  
 it, will close the sale at once - if however you think  
 its too high, I would like to have Mr. Kasenstein  
 value the collection (of course keeping your estimate  
 confidential) and if from his figures I find that your  
 views are more correct than mine, will either  
 accept your bid or defer selling for the present

Marshall C. Lefferts.  
22 East 65<sup>th</sup> St.  
New York.

2

I have gone over my books again & find that the collection actually cost me 1500<sup>00</sup> & while I am ready to admit that some pieces perhaps cost more, than they should, yet others have advanced considerably in value since I purchased them, & I could not probably replace them for same sum - my estimate of each item is 33 1/3 % off their actual cost to me over 3 years ago.

I trust that you will reconsider your figures again, especially as to the patterns, as I fear you have undervalued them, there being fewer quotations for them, than for the other pieces & let me know your views early as possible, as I shall go out of town before long & will want to put the coins away in Safe Deposit box, if I do not send them.

Yours truly

Dear Sir,

At last we have  
succeeded in disposing of your  
old paper money.

We have sold the Continental for 60.  
~~Take the Fractional for stock~~ 30  
We have sold the the currency out of Congress for 100.  
Leaving us for profit some Confederate notes & other  
Gold & Silver for which we have to pay 40 to make up  
the 200.

The gentleman to whom we sold the confederate  
notes them provided he can have a little  
time for payment which we granted and  
which we hope is satisfactory to you we will  
remit in full as soon as we hear from  
You have spent some dollars Exp and taken a

179 Great deal of trouble to see the collections  
and as we will probably in the end only get  
out whole, if you can see fit to make any  
reductions from the Soc. please do so.

We are trying to get you the Ancient & Coins drawn,

Your favor 10<sup>th</sup> inst. to  
hand yesterday - too late to answer by return mail as  
you request - I have no doubt as you say, that your  
offer is a fair one, and note what you say as regards  
the Cento. Colonials and patterns, which in your  
opinion are worth as much less than my estimate  
as to war than make the difference in our totals -  
As regards this I can only say that in the other  
pieces I placed a low estimate, in my desire to be  
liberal, in all about 10% less than their actual cost  
to me - while the Cento re. I put at their actual  
cost as entered upon my account - I included the  
Jefferson head as genuine @ \$20<sup>00</sup> price I paid. (I  
am surprised that it is not, as I showed it to several  
at one of Bangs sales, before purchasing & I thrust  
to you among others) the "Lucius S." I was aware  
was not genuine & did not value it at all, & the  
others I find the 5 Silver medals, 3 near Newby's  
& Vermont re. 6 Washington, & Ross American

Glorious Regina - Carolina Elephant & numerous Columbus  
and run over \$100.00 alone - if this was not an overvalued  
you will see the rest was not very highly valued -

As regards the "curency" I was not aware  
that I had made it a condition of the sale, if so  
expressed it was a mistake, as I remember the  
terms of your first letter - but as you referred to  
the fractional currency, your brother stated he  
thought he knew of a purchaser for the Confed. I  
intended to state, that I would like to clear out  
the whole collection -

But to make the matter short, I will  
submit the following proposition which does not vary  
much from your offer - viz:

Your offer 700 for the coins now in your hands  
and 25.00 for the 2 Cabinets (rest cabinets) there by  
the way cost me now 60.00 - I will sell you the  
coins and 2 Cabinets for \$700.00 and the gold  
ancient coins you showed me when at your house  
which you valued at \$46.00 or its equivalent in  
money, if you have sold it - this is less than I  
had now intended to ask for - but as I have gone  
so far, it might as well close the transaction -

Marshall C. Lefferts,  
22 East 65<sup>th</sup> St.  
New York.

2

If however this does not meet your views, please  
return the coins & I will wait a little longer before  
selling - in fact it goes against my grain very  
much to sell at all.

If you want my colln. of proc. currency  
including my Tupperware (about \$300 face value) as  
per list left with you - I have them checked into  
a cross - you can have them for 30<sup>00</sup>

My S. & C. Chapman  
Gents.

Yours 13<sup>th</sup> inst. to hand, in which  
you accept my offer & ask to have the 3 collections  
of notes sent -

I will have the Cabinet boxed & shipped first  
chance I can get, probably Thursday A.M.

I have been looking over my notes and find  
that I have undervalued the Frae. currency, but  
now let it go as already fixed - but I also find I  
made a considerable error in the Continentals, as part  
of my collection was in another drawer & I did not  
see it - I have gone over it carefully, taking Scott's  
& Breckin's lists as basis and fixed it foot up  
\$114.<sup>00</sup> many of notes being scarce & majority fixed -  
I am willing to make an allowance on this of say  
40%. This will bring my price for the collections

<u>net</u>	Fractional Currency	22.50	
	Confederates "	109.	
	Continentals "	68.50	\$200. <sup>00</sup>

I have given this careful consideration and  
think it low - say Confetti and rice notes and  
many of them I bought considerably below the  
ruling auction rates, at private sales, notably those  
of 1<sup>st</sup> issues & I have been offered by Brown &  
Bechtes a considerable advance (in one instance 200%  
advance) on prices I paid - the franc currency is  
also cheap at prices quoted, including as it does  
several duplicates - In this view I do not care  
to see either set separately at this price - but  
will be pleased to have you take them as a whole.

If you have them yet, please send me  
Denarii of Tiberius, Caligula, Claudius, Nero  
& Octo with heads fine or good impressions, but  
of common varieties - also if you have any g.e.  
coins about same size cheap with heads of same  
well known females (like Cleopatra for instance)  
send that too, it will serve to finish off the  
baggage - I will see if I want them & if not  
return them

Wm. S. Ho & Co. Chapman  
Gentlemen

I duly received yours, enclosing the Tribunes - which I will keep, failing a better one, as this is not good - the inscription being almost illegible.

I write you offer of \$150.<sup>00</sup> for my Confed. Continentals & fractional currency. this I must decline - I cannot take less than my price which set at \$200.<sup>00</sup> and so not care to see either separate, unless you want the Continentals @ \$67.<sup>50</sup> the other two, I had rather keep than see at prices named -

I congratulate you on your sale, as the 'fastens' & some of the others s.o. for less than I think they were worth yet the Dollars 1/2 cents & some others brought good prices - and reimbursed you handsomely, which I do not grudge you, as it is a satisfaction to see that every piece of any rarity brought more than I paid for it - the '94 Dollar each was \$40.<sup>00</sup>

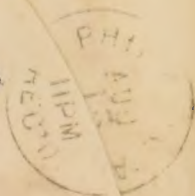

Yours truly  
M. C. Lefferts.

Yours 18<sup>th</sup> inst. to hand - I will  
sell the Continental currency for \$60<sup>00</sup> and the  
fractional for \$30<sup>00</sup> - this is the best and all that I  
can do and the price that I originally placed upon  
them, I went over the figures carefully and am  
satisfied that no collector could duplicate the  
Continental for less than \$100<sup>00</sup> - The confederate I will  
not sell separately for less than \$125<sup>00</sup> but will sell  
as above as a whole for \$200<sup>00</sup> as before stated

If you return the collections please do  
so to me at this address

Yours truly  
M. C. Lefferts.

Your favor of 7<sup>th</sup> inst. to hand - and  
contents noted - I should be very sorry that you  
should lose (or rather fail to make) anything by  
your dealings with my collection, but I really do  
not think I should see this part of the colln. less  
than \$2000, when in August last, I wrote you to  
return the notes under you could get my figure, I  
was satisfied I could dispose of them here for that figure  
& in fact was offered high prices for some notes that  
would nearly reach the figure - You say that you  
have realized \$1600 & have the bal. currency & part of  
the Confed. left. Should this not leave you a margin  
of profit? Suppose we leave this question anyway till  
our accounts are balanced - As regard your selling  
the Confed. in time - I suppose you know your buyer, and  
have no objections to giving you a reasonable time  
further in which to settle the accounts.

Yours Truly W. C. Lefferts

You have probably seen accounts of the  
bad failure of the Mechanics Nat. Bank of Newark,  
as I was unfortunate enough to be one of the depositors  
I find myself that if money was it would be a convenience  
if you could send me at once the balance of your  
account with me, as also a statement of same.

I should have been pleased to have given you  
a longer time to settle if it had not have been for  
the above occurrence

If you hear of a purchaser for the Dickens and  
Kermiswater machine & Prosser's Cents & 1/2 Cents, I  
will be pleased to entertain an offer - the others I  
guess I will keep

Yours Truly  
M. C. Lefferts.

Yours two favors each enclosing check  
for \$50.00 to hand - Sickners has prevented my answering  
before

When you first wrote me in regard to a reduction  
in price, I had intended in settlements to make some  
allowance upon your representations - but after my heavy  
loss by the Bank failure, I do not think I should do so  
justly to myself - You will remember that the price  
was distinctly named at first and repeated - and when I  
wrote you during the summer that if you did not want them,  
to send them back. I had a party in N. Y. who said that if  
the prices corresponded to my description of them, he would  
take them at my price - as you then said you would keep  
them, I took my chance to make the sale

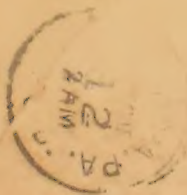

Under all the circumstances I do not think it  
 fair to say that I cannot make any reduction from  
 the named.

From Rev. Mr. C. L. Lupton.
